This is a revolution.

Here is **Sublio Hyperionic Water Life**.

A unique holistic cosmetic-therapeutic solution to naturally and highly effectively address problems linked to immunosenescence, skin ageing and the majority of skin diseases.

4 M€

4 MILLION EUROS INVESTED

15 YEARS

15 YEARS OF R&D

Hyperionic Water Life technology is a **disruptive** e-biotechnology process based on water hyperionisation.

**MADE IN
FRANCE**

A world-first revolutionnary patented

Technology designed
FOR YOUR HEALTH AND WELL-BEING

SUBLIO technology

- does not add anything to the water
- does not remove anything from the water

Our «Hyperionic Water Life» reactors
are installed in the machine rooms
of wellness and hydrotherapy centers:

- ✓ PALACES
- ✓ HOTELS
- ✓ THERMAL BATHS
- ✓ THALASSOTHERAPY CENTERS
- ✓ BALNEOTHERAPY CENTERS
- ✓ SPAS OR SWIMMING POOLS

Balaruc-les-Bains thermal baths (Hérault, France)

Sublio's actions

SUBLIO's Hyperionic water

DEEPLY REPAIRS
AND REVITALISES ALL
SKIN TYPES

Skin hydration,
regeneration and healing,
treatment of atopic skin
and psoriasis

REJUVENATION AND
RESTRUCTURING
OF THE SKIN

MAXIMISES THE DEEP AND
EXTENSIVE ABSORPTION OF
TRACE ELEMENTS

Restores the skin's
functional integrity,
significantly strengthens
immune defences

REVITALISED SKIN
AND
IMMUNE SYSTEM

BOOSTS THE EFFICACY
OF THE MAIN COSMETIC
AND THERAPEUTIC ACTIVE
INGREDIENTS

Optimises restoration of
the skin's vital functions,
stimulates microcirculation

ACTIVE STRENGTHENING
OF THE
SKIN BARRIER

AQUATIC THERAPY PROFESSIONALS

THERMALISM - THALASSOTHERAPY - BALNEOTHERAPY - SPAS

Other than the active and visible repair of the skin, Sublio also kicks off an extraordinary action to increase the intracutaneous osmosis of trace elements.

This exceptional process boosts the benefits of aquatic treatments, notably allowing mature skin – often denied the benefits of ionic water due to “short” dermal vein circuits to be able to capture the benefits of trace elements whose highly beneficial effects on the immune system are well-known – and to circulate them throughout the body.

Scientifically
Proven
effectiveness

In order to gauge the efficacy of treatments offered by Sublio hyperionic water, scientific studies have been conducted by two leading laboratories.

The results of ex vivo objectification studies combined with genome studies through modulated messenger RNA transcriptome analysis demonstrate Sublio water's unrivalled efficacy in the anti-ageing process by actively repairing the skin barrier, as well as maximising penetration by trace elements and cosmetic-therapeutic active ingredients.

For its biotechnology certifications, Sublio France has chosen **BIO-EC & GENEX**, two leading laboratories owned by **eurofins**:

in detail

deep repair and regeneration of the skin

(...) SUBLIO hyperionised water [editor's note: although applied in very small quantities (2mg/cm²)] complete/y stopped skin drying out from the first application.

(...) Sublio hyperionised water has a clear moisturising effect.

(...) A single application of SUBLIO water offers the same repairing power as a complex cosmeticformu/ation.

(...) The hyperionic water produced using the SUBLIO HYPERIONIC WATER LIFE has an excellent repairing effect on the skin.

(excerpts from the Study published by Laurent Peno-Mazzarino, Study Director & Technical Director at the Bio-EC Laboratory)

Schematics representations of the skin's condition

without Sublio water

with Sublio water

In-depth histological analyses, based on changes to marker protein activity in epidermis reconstruction (involucrin, filaggrin, aquaporin 3) were conducted to highlight the hydration and reconstruction of the skin's protective layer (stratum corneum).

SUBLIOes hyperionic water causes the skins outer layer to become thicker by increasing layering.

After skin delipidation, SUBLIO water prevents a decline in filaggrin levels by doubling its initial rate after 24 hours.

SUBLIO hyperionised water offers clear hydrating activity confirmed by the reduced expression of aquaporin 3.

The clear overexpression of involucrin suggests that SUBLIO water actively Plays a rote in reinforcing the stratum corneum.

maximizing penetration by trace elements

in detail

YOUNG . SKIN

Trace element penetration without Sublio

The skin barrier is altered, the strength of the transcutaneous electrical current is low, the intradermal penetration of trace elements is moderate and shallow without being able to reach the “short” dermal vein circuits.

Trace element penetration with Sublio

The skin barrier is totally repaired, the strength of the transcutaneous electrical current is powerful, the intradermal penetration of trace elements is significant and deep.

MATURE . SKIN

Trace element penetration without Sublio

The skin barrier is altered, the strength of the transcutaneous electrical current is low, the intradermal penetration of trace elements is moderate and shallow without being able to reach the “short” dermal vein circuits.

Trace element penetration with Sublio

The skin barrier is totally repaired, the strength of the transcutaneous electrical current is powerful, the intradermal penetration of trace elements is significant and sufficiently deep to reach the “short” dermal vein circuits.

HYPERIONIC WATER LIFE

NON-CONTRACTUAL ILLUSTRATION

QUICK AND EASY TO INSTALL

1

Recommandation

Depending on your hyperionic needs, we determine the positions and assess the number of machines required to implement your project.

2

Installation

Our fitters transport, position and start up Sublio with the support of your professionals for the required electrical and hydraulic connections.

2 days

Depending on the specific features unique to the installation of each Hyperionic Water Life, the positioning and connections generally require less than two days of work on site.

OUR GUARANTEES

1

The scientific results are **100% certified**.

2

The Hyperionic Water Life generator has a **12-year parts and labour warranty** excluding flood, fire or power surge.

3

The use of this **warranty** requires the replacement of the device's two induction plates as part of its **annual maintenance**.

4

The Sublio range is **entirely made in France**.

5

Sublio customer services are available **24/7**.
